Province Weather & Climate		the weather of the province is affected by Alborz mountain and has cold winters and moderate summers. The south of the province has a hot and dry weather because of being adjacent to desert, and at one side reaches Alborz mountain and at the other side ends in one of the driest deserts of iran. Furthermore because of the existence of natural rough terrains comprised of deep valleys vast plains with an appropriate plant cover and green gardens attracts visitors to itself. ☺
